TO PLANT A GARDEN IS TO BELIEVE IN TOMORROW

Audrey Hepburn

Home is where your story begins. Where you choose to live, is equally as important as what your lifestyle will be when you are living there.

The Garden Residences, overlooking one of Singapore’s best known and much-loved neighbourhoods, Serangoon Gardens, presents a life that has been built on these fundamentals.

Location, one that surrounds you with lifestyle, shopping and F&B establishments. Connections, with a transport network that takes you anywhere you need to be in minutes. Education, because the pursuit of learning at any age should never be undervalued. Architecture, in creating a home that stands the test of time and draws inspiration from the gardens outside, to create a life that’s well-lived inside.

A home is more than just a roof over your head, it holds a lifetime of memories. Where growth and wellness are integrated to create an energised, holistic environment for you and your loved ones. There is no better investment than in your family or yourself, and no better place to put down your roots.

THE GARDEN RESIDENCES.
Inspired by the gardens, designed for your wellness and wellbeing.
A short stroll to Serangoon Gardens, you can also connect and travel seamlessly with the CTE and PIE mere minutes away. And with a free* shuttle service to and from Serangoon MRT Station, the downtown and city are all easily within reach.

We see property development as a life-touching, life-transforming business. We want to help build lives, realise dreams, and shape landscapes; and in doing so, set a new standard of quality living within Asia – one that is sustainable and answers modern urban needs.

Driven by our commitment to shape a better future, we challenge ourselves to constantly think and see things from a different angle. It is this unwavering approach that has helped us establish a portfolio of award-winning properties across Asia.

Our track record speaks for itself. We brought waterfront living to a whole new level with the iconic residences at Keppel Bay and Marina Bay. We redefined Singapore’s skyline and changed the face of business with landmark developments such as Marina Bay Financial Centre and Ocean Financial Centre.

As we look towards the future, we remain focused on providing urban living solutions, all while continuing to create live-work-play environments of enduring value for the community.

At Keppel Land, we call this ‘Thinking Unboxed’.

The development objectives of Wing Tai Asia are directed by quality and progressive design, with a consciousness for the environment. Principles of sustainability are articulated in our design and development approaches for enrichment of living environments, integrating developments into surrounding greenery and locale, transforming living spaces into cherished homes.

Challenging convention while embracing heritage and tradition, exciting yet functional, our projects invite people to appreciate the beauty of timeless design. We have a steadfast commitment to quality in every aspect of our developments, from immaculate craftsmanship to impeccable service. This finesse is manifested in our pairing of world-renowned architects and designers for collaborations, bringing together contrasting approaches and cultures to create projects that break new ground.

With an attractive portfolio of residential properties that are globally sought after by a discerning clientele, like Le Nouvel Ardmore, The Crest, The Tembusu, Belle Vue Residences and Draycott Eight, we constantly seek to create lasting value for our customers.
